

# Maintenance for wooden parts

General principle is to choose the same type of paint as in the original treatment.

Lappset delivers maintenance paint for wooden parts in 1 litre bins.

29.7.2016

Follow the instructions regarding painting conditions, given by paint manufacturer.

## Preparations

1. Clean surfaces with brush.
2. Wash surfaces with suitable pre-treating detergent.
3. Clean moldy surfaces with hypochlorite solution.
4. Rinse the surfaces carefully with clean water, from above downwards, e.g. with spray
5. Remove loose old paint.
6. Sand clean and dry surface (sandpaper 240-280) and remove sanding dust.
